

King High Output 7.5 Peak HP Air Compressor MODEL KC-7180V1-MS

Features:

- 2 Cylinder cast iron single stage oil lubricated pump
- High output 30 cfm @ 100 psi
- 150 PSI max pressure for optimum tool performance
- 80 gallon ASME registered tank provides longer run times
- ASME safety valve
- American 7.5 peak HP motor and magnetic starter
- Belt drive with sturdy enclosed metal belt guard
- Large intake auto-drop aluminum filters
- Heavy duty 1/2" ball valve and easy to read tank pressure gauge
- Pump with "V" style design minimizes vibrations, improves cooling and extends compressor life

Specifications:

Motor	7.5 Peak HP
Factory Pressure Setting (adjustable to)	95-125 PSI (Max 150 PSI)
Air Delivery @ 40 psi	43 cfm
Air Delivery @ 90 psi	30 cfm
Tank Size	80 gallon
RPM	1800
Motor Amperage	33 amp
Voltage	208/240V, 1ph. 60 Hz
Assembled Dimensions	35" x 24" x 68" / 490 lbs
Package Dimensions	35-1/2" x 31-1/4" x 73-1/2" / 510 lbs
